

# **Perry Guiskoff**

My small business career started at the age of 21, in 1986, with my first body shop in Jamaica, Queens with working space for 3 cars. Fast forward a couple of years with that same location housing 150 cars and the addition of 4 other facilities.

I have always had a simple business model, be the best you can be at your profession and give the customer what they deserve. Sometimes these things are not easily achieved so you must think outside of the box.

Owning a business is not easy. You need to learn fast how to get yourself over hurdles when they arise.

I am glad to be part of the YCC and hope to be an asset to the organization.
